Preface

This booklet updates and replaces the second edition of *Selected Free Ontario Government Publications for Children and Young Adults*. Users will notice several changes have been made in this compilation. Priced items (\$2.50 and under) have been added, and subject headings and grade level indicators have been omitted. The former decision was made so the great variety of inexpensive publications would be brought to the attention of teachers and librarians throughout the province; while the latter decision was made to speed up the time taken to get information about current in-stock items to the user.

My thanks to D.R. Counsell, Manager, Mance Carbery, Administrative Manager and Pulver Zajfman, Administrative Clerk of the Publications Service, Ministry of Government Services and Larry Moore of the Ontario Library Association for supporting this publication.
